POLICY JUSTIFICATION

NATO Communications and Information Agency (NCIA)—UHF SATCOM Radio Systems

The NATO Communications and Information Agency (NCIA) has requested to buy five hundred seventeen (517) AN/PRC-158 Manpack UHF SATCOM radio systems. Also included are crypto fill devices, man-portable ancillaries, vehicular ancillaries, deployed Headquarter ancillaries, power support, and operator and maintenance training, and other related elements of program, technical and logistics support. The total estimated program cost is \$65 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of NATO allies and partner nations that are an important force for ensuring peace and stability in Europe.

This proposed sale will ensure NATO warfighters have access to the latest C3I systems and technologies, and will be interoperable with U.S. forces. An updated UHF TACSAT radios in the hands of NATO allies and partners will offer significant C3I capabilities at all echelons, from the operational level down to the lowest small unit tactical formation. These capabilities increase secure communication effectiveness and efficiency and enhance military decision making. NCIA will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractor will be Collins Aerospace, Cedar Rapids, IA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require one (1) or two (2) contractor representatives to travel to the specified NATO country to conduct the Operator and Maintenance OCONUS for a period of two (2) months.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 20-48

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The UHF SATCOM terminal provides voice or data connectivity. The device itself is CCI but is not classified until it is keyed with the proper keying material to enable secure communications.

2. The highest level of information required to furnish the equipment, training, and data associated with this proposed sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the enclosed Policy Justification. A determination has been made that the NCIA can provide the same degree of protection for the sensitive technology being released as the U.S. Government.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the NCIA.

#### ARMS SALES NOTIFICATION

Mr. MENENDEZ. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter

references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: February 16, 2021.

\*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Egypt—Rolling Airframe Missiles (RAM)  
Block 2 Tactical Missiles

The Government of Egypt has requested to buy up to one hundred sixty-eight (168) RIM-116C Rolling Airframe Missiles (RAM) Block 2 tactical missiles. Also included are RAM Guided Missile Round Pack Tri-Pack shipping and storage containers; operator manuals and technical documentation; U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support. The estimated total program cost is \$197 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO Ally country that continues to be an important strategic partner in the Middle East.

The proposed sale will support the Egyptian Navy's Fast Missile Craft ships and provide significantly enhanced area defense capabilities over Egypt's coastal areas and approaches to the Suez Canal. Egypt will have no difficulty absorbing this equipment into its armed forces since Egypt already operates previously procured RAM Block 1A missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles & Defense (RMD), Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. or contractor representatives to Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

#### TRANSMITTAL NO. 20-81

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

#### Annex Item No. vii

##### (vii) Sensitivity of Technology:

The RIM-116C Rolling Airframe Missile (RAM) is an autonomous (i.e., "fire and forget") lightweight, supersonic, surface-to-air tactical missile for ship self-defense against current and evolving anti-ship cruise missile threats. Advanced technology in the RIM-116C includes dual-mode RF/IR (radio frequency/infrared) guidance with IR all-the-way capability for non-emitting threats.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Government of Egypt can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Egypt.

#### POLICY JUSTIFICATION

Finland—Extended Range Guided Multiple Launch Rocket System

The Government of Finland has requested to buy twenty-five (25) M30A2 Extended Range Guided Multiple Launch Rocket Systems—Alternative Warhead (ER GMLRS-AW) Pods; and ten (10) M31A2 Extended Range Guided Multiple Launch Rocket Systems—Unitary (ER GMLRS-U) Pods. Also included is an ER GMLRS Materiel Release Package; Stockpile Reliability Program (SRP) support; Quality Assurance Testing (QAT) services; technical publications; U.S. Government and contractor technical and logistics support services; and other related element of program and logistics support. The total estimated cost is \$91.2 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a trusted partner which is an important force for po-

litical stability and economic progress in Europe. It is vital to the U.S. national interest to assist Finland in developing and maintaining a strong and ready self-defense capability.

Finland intends to use these defense articles and services to modernize its armed forces. Finland intends to expand its existing army architecture to counter potential threats. This will contribute to the Finland military's goal to upgrade its capability while enhancing interoperability between Finland, the United States, and other allies. Finland will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Missile and Fire Control, Grand Prairie, TX. There are no known offsets associated with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Finland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

##### (vii) Sensitivity of Technology:

1. The ER GMLRS provides a persistent, responsive, all-weather, rapidly deployed, long range, surface-to-surface, area- and point-precision strike capability. The AW variant (XM403, also referred to as M30A2) carries a 200-pound fragmentation assembly filled with high explosives which, upon detonation, accelerates two layers of preformed penetrators optimized for effectiveness against large area and imprecisely located targets. The Unitary variant (XM404, also referred to as M31A2) is a 200-pound class unitary with a steel blast-fragmentation case, designed for low collateral damage against point targets. The ER GMLRS maintains the accuracy and effectiveness demonstrated by the baseline GMLRS out to a maximum range of 150 km (double of GMLRS capability) while also including a new Height Of Burst (HOB) capability.

2. The highest level of classified information associated with the sale of this equipment is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Finland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Finland.
